

## PROTECT YOUR COMPANY, CLIENTS, WORKERS AND ASSETS

### WHY EMPLOYEE BACKGROUND CHECKS?

Knowing the backgrounds of the people you hire is absolutely essential because a business can be held liable for accidents and crimes committed by its employees.

Negligent hiring is the failure to check the backgrounds of job applicants before you hire them. Every day, people with criminal records, falsified educational credentials and other serious potential liabilities are hired by companies who fail to thoroughly check their backgrounds.

The result can be acts leading to expensive negligent hiring lawsuits.

To protect your company and minimize risk, you need to get reliable background information about everyone you consider for employment.

Veriproved Employee Background Check is an information service that verifies job applicants' resume data, checks driving records and examines criminal history to reduce the risk of negligent hiring liability.

Through Veriproved Employee Background Check, you can verify the accuracy and/or completeness of information provided by job applicants — before hiring and training — and thus reduce the costs incurred by high turnover as well as your risk of liability.

### VERIPROVED BACKGROUND CHECK ADVANTAGES

We set the industry standard by guaranteeing that you will receive your reports within four business days or it's free. **Ninety percent** of reports are completed within 48 hours.
